USA

Dear Sirs,

My laboratory in the Hebrew University of Jerusalem, Israel, is concentrated on physiological, cellular and molecular aspects of opioid peptide biology. I would like to explore the possibility of submitting a research grant proposal to the Council. I would greatly appreciate if you send to me the information required for such submission. Due to the crisis in the Gulf we experience in Israel delay in receiving mail from abroad. Thus it would be preferred if you could use rapid mail. Thank you for your assistance.

Sincerely,

Haim Rosen, Ph.D.
Dept. Molecular Virology
